

AS IT WAS ON RUN 3788

SUNGAI LONG (27/6/2016)

HARE: BILLY NO HAIR

I reached the run site at 5pm, the weather was hazy. There were many cars already occupied on both sides of the flat road. At 5.30pm, the cars arriving would have to park on the hill slope, double park, or at the far away from the run site. Fortunately, this road has not many cars passing by, and our cars do not cause any inconvenience to the residences.

At 6pm, OnSec called on the run start. The crowd count about 100 plus. It was a big turnout; probably the run site is near to town. I was informed that many were stuck in traffic jam on my last week run at Bukit Tinggi.

At the initial, we were hiked up from a cement trail; the first check was not far away, and was a forward check as usual. Then, the constantly uphill trail was continuing. From my GPS record, it was a KM trail, from 250 ft hike up to 1200 ft, and this was the highest point from the whole trail run. The second check was rather took long time to break, as there were many side trails along the main road. It was later found at one of the right side downhill slope. After that, it finally turns into a bush trail.

Then it was downhill, until a rapid stream, cross a wooden bridge. It is a nice and cooling place. The check was on the right after the bridge and quickly found by the front runner. Later we cross another wooden bridge and uphill continue until we reach to an open area, where the jungle has been eliminated for the housing development. Then we pass by an Indonesian worker village, small houses scattered around the bush and around the under development area. Finally come out to the tar road to the home trail.

At the run site, as usual, runners were busy discussing the checks and the run, while enjoying the cool watermelon and drinks. At about 8.30pm, the circle started with Orange re-practice for Butler duties, and he received a free beer for his generous offer.

Hare BillyNoHair and co-hare Won Tian Haur was called up, and there was a "Good Run" called out, although the hare seems unsatisfied with his own run, but I think the hare does his best as the area is too much developed, it restricted the run in jungle area. From the run, we can feel

the hare was trying very much to set the run into the jungle area. A Good Run was called and a good song was sung.

On Cash was up to remind the members that the 3/4 fee is ready to pay.

InterHash was up to urge members try to give support to the Royal Stout Seremban run, as up-to-date, 5 members has registered for their run, it is too few in compare to our members size.

InterHash and our 80 anniversary committees are really working very hard for a successful 2018 event. Guests were called up. Total has 11 guests, but some might have left after the run. However all are paid guests. They are from Mantin and Batang Kajang Hash.

A new member has joined us, Fei Chai Rong (or Fat Dragon), welcome new member and he will be taking up the Butler job next week.

The Bomoh, Dave, has informed his run is on Lembah Beringin on next week. OnSec was charge for wearing wrong size of pant. Ah Meng was charge for wearing a new shoe, OnCash was charge for buying a new pair of shoe, and it is really news to me for being charge for buying new shoe. Both of them of course were treated with a delicious sock filter beer!

Mountain Goat was charge for being an experience hash member with MK4, did not educate their member to remove their hash sign after their run.

Ken was charge for organizing his unmentionable hash run two weeks ago, for breaking the hash 'un-competition' run practice, by given away prize for the top five runner, and of course the top mother hash runner who receiving the prize were also charge. OnSec was charge for being 'prize award' to the runner.

As England has voted out of Euro, three of our England members Russell Jones, Roger, David Hirst were happily created a "Brexit" song to celebrate England withdraw from European Union.

The On-On was in a restaurant New Canton no far away from the run-site. There were 9 full tables of members. Food was delicious.

Big thanks to the hare for a "GOOD RUN" and "GOOD FOC FOOD".
