

# **AS IT WAS ON RUN 3798**

## **AT SG. TEKALA (5/9/2016)**

### **HARE : RUSELL JONES ON-CASH**

Left KL at 430 and traffic to today's runsite was excellent or maybe due to early departure, reach Sg Batangsi/Tekala in 45 minutes "wunderbar ." Lots of time to be busybodies, and surprise to see a boot out members been accepted to run with us as guest in Gila Kong. What a shame!!!

Look up the horizon loom a big mountain and given that one of our reputed co-hare is in the mob, then the question started to pop up, will I be able to made it to the top with the group FOO and co.

Come half pass five saw Kana and Gary Murrell kicking off and decided to join then and take the casual walk to the usual in trail path, pass the first check to the left along the laterite road without going through it as our past experience tell us that it should be a straight on trail. After more then 300 meters there lie the continuation paper, pass the fruit plantation and now the start of the unforgiving uphill climb to the second check going downhill to the indon's labour quarter. Again from past experience, we decide to continue with the uphill climb and there lie the 2nd check continuation trail till we reach the top of the mountain summit where the 3rd check was laid near the farmer's hut .

Again as both of us trust our instinct, we back down to go the usual way and break the 3rd check within second and proceed further after much discussion on whether we should proceed which by own account could be a long run given the repo of the mob's co-hare. Still on top of the mountain ridges we reaches the 4th check and contemplate to go further down , look at our watch, its' now 6.37 and question, where are the hashers, front runners, looking down the 4th back check trail we didn't have balls to go further but the fear in both of us brought us down to our knee and decided to backtrack and follow the in trail.

At 6.45pm met up with FROPs Monkey, Ah Kah, Mountain Goat, Sotong , Chai and Young Yap , and immediately causes those back marker in San Kai Mine, Kou Wong, and two others to backtrack as well. While on the way down near the in-trail papaya plantation bump into the 2 FROPs short cutter in Chai and Y. Yap strolling back. Back to runsite in bright daylight and within seconds, Frops in Monkey and Sotong were back at 7.20pm and learned that the first illegal check was too far away and the connecting trails was more than 400 meters away!!!

Kenny Soh is a replacement Bomoh for next week hare And, with the hare give freebies nice singlets Bomoh charges Soo Bee and Bull Ong not wearing the hare singlets, deserved for song No5.

**AS IT WAS ON RUN 3798  
AT SG. TEKALA (5/9/2016)
