Run No 3826

Hare : Steven Leong

Ulu yam, run is about 9.8 KM. Eventually is a good run. First runner came out about 1 hour 15 minutes.

First check with a fault trails. the fault trail caught most of the front runner. Take them about 5 minutes to break the check.

Second check is at the rubber estate. Monkey broke the second check, Soh B call for ON ON.

Than continuing with the third check up the small hill. Most of the senior Hashers seems like knowing the direction and didn't follow the paper up hill, they went by the side going to the same direction.

From there onward, trial is a bit wet and slippery due to the rain was started 530pm. Crossing to the other side through the bushy and slippery trial. We are than come to the road. Fault Trail on the left and check on to the right.

We continue running till we come to another check point, I think is a last check point No 5. I ran behind of all the top runners, and didn't comes to the last check and most of the front runner got into it and follow all the way back to the run site about 2km. Not much of hill, exiting run with wet weather heavy rain just now.

Everyone is enjoying.
