After a couple of Q and A, we found from the grapevine that in-trail was through the usual 2nd in trail entrance which was the same trail that the hare had adapted for Lam Sui's run some 5 weeks ago.

At 6.30pm with On Sec and Pilot Teh on tow, off we go by using the home trail route and once we hit the Oil Palm fringes, we turn left to accent to the baren hill and met up with the 4.30 gang who couldn't break the last check with my knowledge we accent the hill and hit paper coming down from the left, with OnSec's urge, we follow the left in paper and reach the summit flag station and met up with the camping gang of Poon Chaiand Danny Lim setting up a bond fire. Decide to turn around and gets back to last check and meet up with front runner of Monkey and Flying
