Pre Run:

Knowing the runsite is a bit remote and some section very rough dirt road only accessible with 4WD, I decided to follow Tofu Soo's, we depart from Tofu Soo's house around 3:30pm, on the way to the runsite we detour to Restaurant Fish Village Semenyih around 4:22pm join Fatty Dragon, Young Yap, Soh Bee, and Chai for teatime.

The runsite is about 2 KM from main road Jalan Sungai Lalang, big open area with plenty of parking.

When we reach the runsite at 5:26pm, as usual On Sec act as parking attendant to control the parking, a big assembly of Motherhash loyal around 60 of them already at the runsite chatting and getting ready for the run.

On Sec starts the run at 6PM sharp, as part of Motherhash tradition On Sec lead the run till first check about 800 Meters from the runsite.

His run is about 10KMs, with 6 checks.

1st Check is at slope of a durian orchard on right-hand side of in-trail, myself and Young Yap went straight, Superoldman and Mountain Goat went cross the river on the left-hand side of the in-trail, from there entire run never see Superoldman again until I back to runsite, after 12 Minutes running up looking up and down for On Paper finally Taiwan Yu break the check, the On Paper is about 50 meters on left-hand side of first check.

2nd Check is on top of the hill about 500 meters and 80 meters elevation from 1st check, Ah Meng and Flyingman found the check and on paper.

3rd Check is about 400 Meters slippery downhill at the rubber plantation from the 2nd Check, Mountain Goat break the 3rd check in split seconds.

4rd Check is circular check after circling the palm oil plantation, Flyingman found the on paper on the right-hand side of the check, leading to bush and paper stop there and we declared false trail, I went back to 4th check and went across the trail found the on paper about 70 Meters from the 4th check and calling On On to chase the bad spirits away, total 12 minutes wasted here to break the check, at this point everybody gather together.

5th Check is about 1.5 km from 4th check, I found the on paper across wooden bridge over small stream.

6th Check is about 800 from 5th Check, I break the back-check in the dark on top of the hill about 250 Meters from 6th check, I already feel the clock is ticking I ran all the way back to runsite the home trail is about 1km from last check managed to complete the run at 7:45pm lucky hare.
