It was Hare Alan Tieu run at Hightech 5, Semenyih near Sri Hanico fishing farm. By 530pm as normal every Monday mother hash run a lot of members is parking along the road near the entrance of hightech 5. On Sec is there already ready to start run. Our beer wagon is arrive early. We start run by 6pm sharp.

As I expect today run to be a good run and I like to meet the hare since Alan Tieu is seldom come to run, we have not seen him long time. but finally this run the hare is missing and absent and the run and circle is representative by his brother WALTER Tieu.

The run is set by Peter Cushion and his team. As normal, we are going in along the single trial and up the hill. Up half way the trails it was the first checking on left side and the on is easy up again on the right. We up the hill and go behind the hill till the farming plantation. This time we turn right to the Taman Tasik Semenyik near broga site. The run is all running trails , as the path is clear , and good to run and we run along some flat trials road after we were up again to the hill and back to our run site. Totally have 6 checking and about 9KM+. It was a good for the runner,
Up and down and flat trails as well. The first runner back before 730pm.
